1.0 EXECUTIVE SUMMARY

We are pleased to submit a proposal for the implementation of KAYUS - A School Management System to automate your school's operations.

Technology has improved the quality of education in the digital age, parents travel through academic portals, which now function as the school's front entrance. Portals is also the face with which institutions' partners or associates interact. It's past time for us to integrate an interactive portal into your school to improve your school's operations, employee efficiency, student and parent happiness.

The catch is that, we are aware of the constant futuristic advances in technology and demands, we will be including up-to-date technology to increase your operations. Our goal is to use an Automated School Management System called **KAYUS** to automate your school's operations or upgrade your previous system to a more sophisticated one. We are convinced that our system will effectively handle your needs due to our required experience in the educational industry.

1.1 COMPANY INTRODUCTION

Admotron Solutions is one of the most rapidly expanding tech firms. It is staffed by young engineers who are both brilliant and nimble. With technical expertise and straightforward communication, these Experts create Client Oriented Systems. To assure great delivery, the company exclusively hires the best.

Admotron is a one-of-a-kind company that strives to provide a customized, inventive, and cost-effective proposition at all times. It follows up with a flawless on-time and on-budget delivery.

Our years of experience are a distinguishing feature. Financial institutions, family-owned enterprises, government owned institutions, non-governmental organizations, and individuals are among our clients. We'd appreciate it, if you could contact one of our existing clients, since we're convinced, you'll get nothing but excellent feedback.

Our pride lies in our after-sales customer care, which includes guarantees, employee training, and onsite and offsite support.

2.0 PRODUCT INTRODUCTION

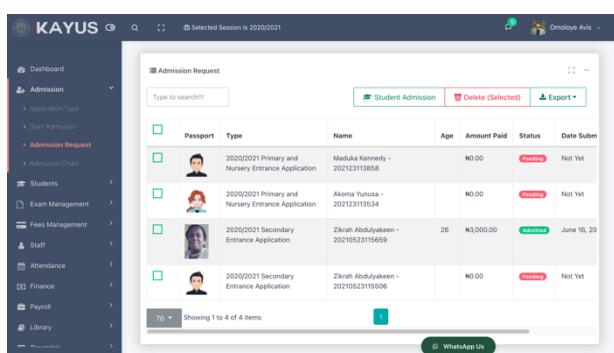

KAYUS is a School Management System that automates a school's day-to-day operations. It is appropriate for Kindergartens, Primary Schools, and Secondary Schools. It's a tried-and-true interactive and user-friendly web-based system.

This is how it works: when you use KAYUS, an applicant, learners, an administrator, parents and staff will all have access to different web platform where they may execute only the tasks that are relevant to their jobs at the time. This means that School Administrators will have unrestricted access to the system and will be able to control all of the actions. Its capabilities can be increased to match the school's future needs as long as the process can be automated.

2.1 MAIN FEATURES

a. Admission Processing System

The admission processing system is used to keep track of potential applicants. It enables schools to efficiently manage their admissions processes, including the creation of numerous applications with associated costs, as well as opening and closing dates. The module comprises of data such as:

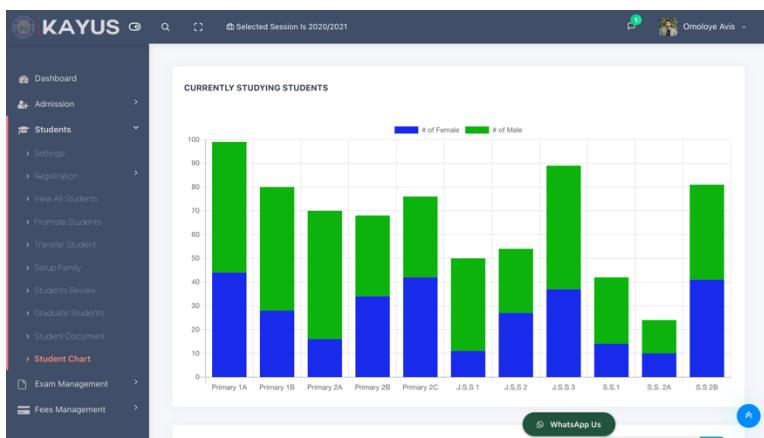

The screenshot shows the KAYUS software interface for the 'Admission Request' module. The left sidebar has a tree menu with 'Dashboard', 'Admission' (selected), 'Application Type', 'Start Admission', 'Admission Request' (selected), 'Admission Chart', 'Students', 'Exam Management', 'Fees Management', 'Staff', 'Attendance', 'Finance', 'Payroll', and 'Library'. The main panel title is 'Admission Request' with a sub-header 'Type to search!'. It includes buttons for 'Student Admission', 'Delete (Selected)', and 'Export'. A table lists four application records:

Passport	Type	Name	Age	Amount Paid	Status	Date Submitted
	2020/2021 Primary and Nursery Entrance Application	Moduka Kennedy - 202123113858		N0.00	Pending	Not Yet
	2020/2021 Primary and Nursery Entrance Application	Akoma Yundisa - 202123113534		N0.00	Pending	Not Yet
	2020/2021 Secondary Entrance Application	Zikrah Abdulyakeen - 2021052315659	26	N3,000.00	Admitted	June 16, 2021
	2020/2021 Secondary Entrance Application	Zikrah Abdulyakeen - 2021052315506		N0.00	Pending	Not Yet

At the bottom, there is a footer with 'Showing 1 to 4 of 4 items' and a 'WhatsApp US' button.

- i. Statistical data of Applicants
- ii. Online payment of Application Fees
- iii. Online Portal for Application Registration
- iv. Admission management

b. Student Management System

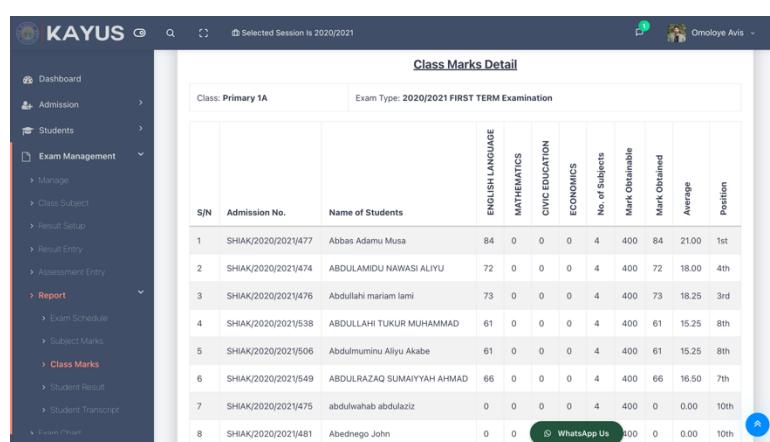

This includes all sub system used to manage students records from the point of admission to the point of exit. It efficiently facilitates the creation and deletion of student records and other

Management Functions. It includes sub-features such as:

- i. Student Registration
- ii. Bulk Student Registration
- iii. Import Student Record from Excel File
- iv. Student Promotion
- v. Student Transfer
- vi. Set Up Student Family
- vii. Student Review
- viii. Graduate Students
- ix. Student Profile
- x. Student Statistics and many more

c. Examination and Result Management

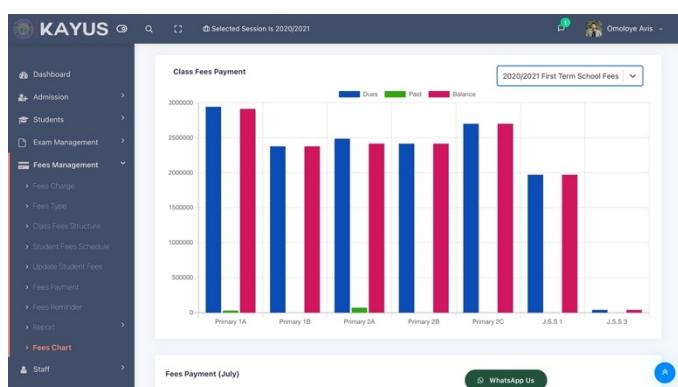

The examination features allow you to add different exams such as First Term, Second Term, Mock Exam and so on, gets report cards and displays various student

Termly reports including (1 C.A, 2 C.A, Exams etc). Most of the notable sub-system here includes:

- i. Uploading of scores from excel,
- ii. subject result sheet at glance,
- iii. class result computation page,
- iv. locking & Unlocking of exams,
- v. student terminal report, examination schedule,
- vi. student transcript.

d. School Fees Management

When it comes to paying school fees, KAYUS is the most accommodating. Students can pay for their tuition either online or through a bank. Any designated Officer or the system Administrator can also record cash payments. KAYUS includes a provision for partial payment and creates a list of debtors. It allows for more control over the structure of school fees. School fees might be collected based on the status of the family, the student, or the class.

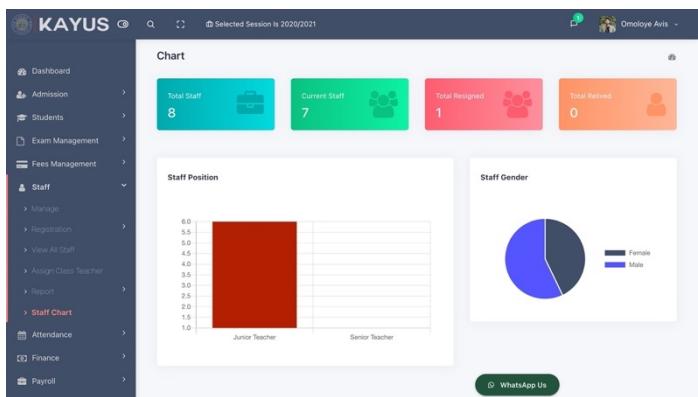

Under this sub module one can

- i. Set up fees /charges such as First Term Fees, Second Term Fees and more
- ii. Define Fee Type such as Laboratory Fees, Exam Fees, Data Capture and more

- iii. Setup different Fees for each class
- iv. Modify each student fees
- v. Send reminder to debtors on a scheduled date

- vi. Online payment report
- vii. Generate Voucher and Cash Register

e. Staff Management

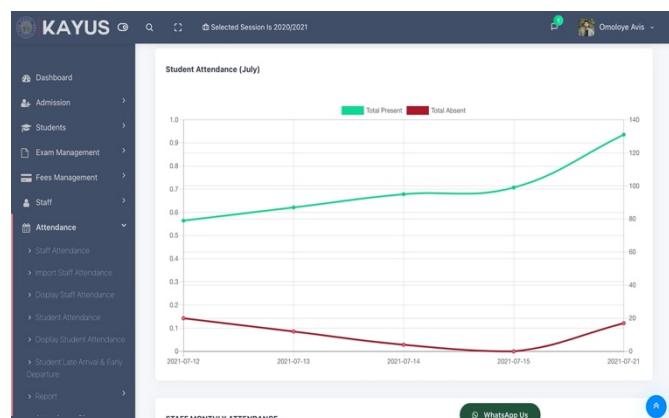

This KAYUS Module holds the staff report, from staff registration to assigning employees to different departments and positions. It enables you to review staff status and display their profile. Most of

these features are available for an Administrator.

f. Attendance System

Class teachers can use this tool to keep track of their pupils' daily attendance. It also tracks employee attendance and authorized users. It's a simple system that records the entire class's attendance with a single click. It indicates if you are present, absent, or half-day. If pupils are absent, it sends an automatic notification to parents and students on their registered mobile phones.

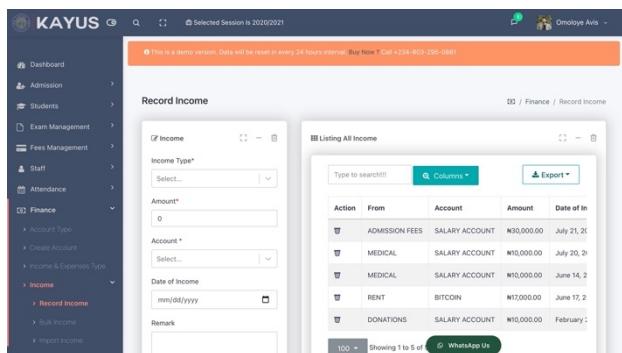

1. It displays the total number of times students are Present & absent on their terminal reports
2. Its records student's late arrival and exact departure time.
3. It aggregates staff total monthly working hours.
4. It displays students and staff attendance summary

g. Finance Management

This section contains all related Accounts activity. You can make a daily register, an income head, and an expenses head. Account balances and account statements are simple to obtain. It allows the designated user to keep track of both income and expenses.

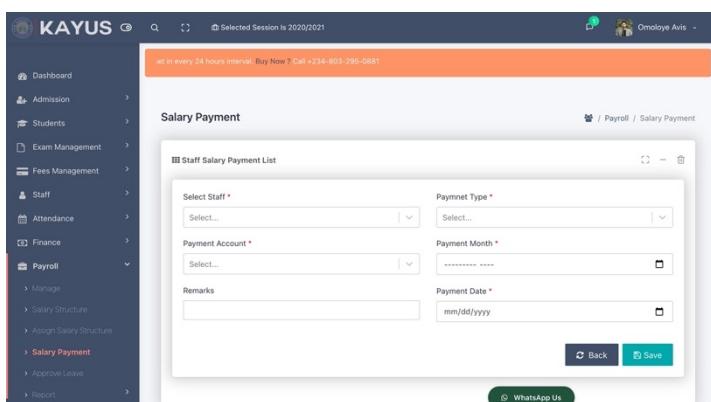

With Finance one can:

1. Record bulk Income and expenses
2. Import Bulk Income or expenses from Excel File
3. Create Multiple accounts
4. Display other financial records

h. Payroll Management

Almost all relevant HR Activities are provided into the Payroll Module. You

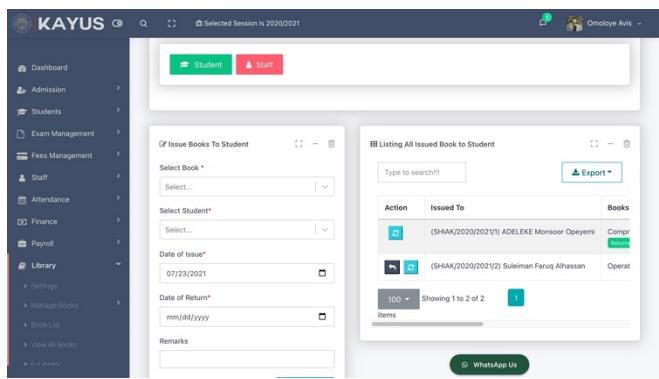

can schedule staff salary structures, assign staff to such. The Accountant can create, edit and delete staff leave, cash payment, bank payment of salaries. Staff Pay slip and payment history can

be seen here as well.

i. Library Management

This is where the library's operations, including book borrowing and return, are managed. It also features an electronic library where all of the digital content is stored and made available to students and teachers. You can add Book Categories to the Library, such as Add Books, Issue Books, Deposit Books, and Receive Lateness Fines, and so on.

The sub features includes:

The screenshot shows the KAYUS application interface for library management. On the left is a sidebar with various modules: Dashboard, Admission, Students, Exam Management, Fees Management, Staff, Attendance, Finance, Payroll, Library, and Timetable. The 'Library' module is currently selected. The main area has two tabs: 'Student' (highlighted in green) and 'Staff'. The 'Issue Books To Student' form is open, showing fields for 'Select Book*', 'Select Student*', 'Date of Issue' (07/23/2021), 'Date of Return' (mm/dd/yyyy), and 'Remarks'. To the right is a table titled 'Listing All Issued Book to Student' showing two entries:

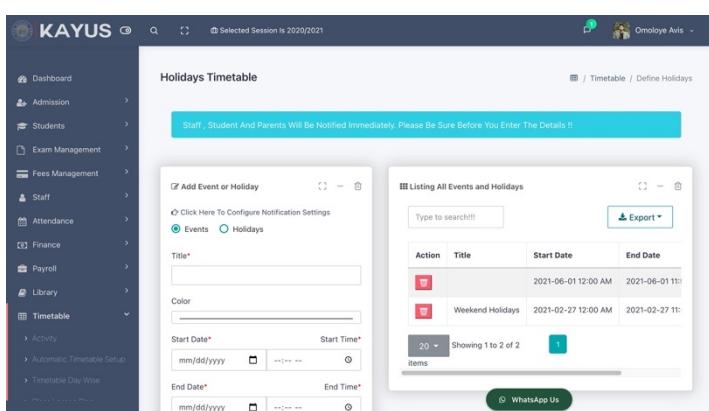

Action	Issued To	Books
	(SHIAK/2020/2021/I) ADELEKE Monsor Opeyemi	Corporal
	(SHIAK/2020/2021/2) Suleiman Farug Alhassan	Operat

At the bottom right is a 'WhatsApp Us' button.

1. Library Administration
2. Cataloging
3. Circulation
4. Borrowed Book List
5. Borrowers List
6. Book usage History

j. Time Table Management System

Using the timetable module, the class teacher can set up class time table, create activities and add subject topics.

The screenshot shows the KAYUS application interface for time table management. The sidebar includes modules for Dashboard, Admission, Students, Exam Management, Fees Management, Staff, Attendance, Finance, Payroll, Library, and Timetable. The 'Timetable' module is selected. The main area has a 'Holidays Timetable' section with a message: 'Staff, Student And Parents Will Be Notified Immediately. Please Be Sure Before You Enter The Details.' Below is a form to 'Add Event or Holiday' with fields for 'Title*', 'Color', 'Start Date*', 'End Date*', and 'Start Time*'. To the right is a table titled 'Listing All Events and Holidays' showing two entries:

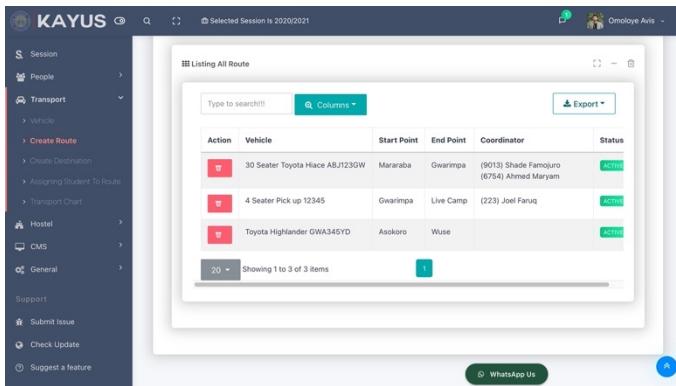

Action	Title	Start Date	End Date
	2021-06-01 12:00 AM	2021-06-01 11:59 PM	
	Weekend Holidays	2021-02-27 12:00 AM	2021-02-27 11:59 PM

At the bottom right is a 'WhatsApp Us' button.

Authorized users can

1. Set up a lesson plan
2. Define Holidays
3. Create Staff Schedules
4. Set up an event
5. Send Auto Notification to Staff, Students and Parents.

k. Transport Management System

The screenshot shows a list of routes in the KAYUS Transport Management System. The columns include Action, Vehicle, Start Point, End Point, Coordinator, and Status. There are three entries:

Action	Vehicle	Start Point	End Point	Coordinator	Status
	30 Seater Toyota Hiace ABJ123GW	Mararaba	Gwarimpa	(9013) Shade Famoujoro (6754) Ahmed Maryam	ACTIVE
	4 Seater Pick up 12345	Gwarimpa	Live Camp	(223) Joel Farug	ACTIVE
	Toyota Highlander GWA345YD	Asokoro	Wuse		ACTIVE

Showing 1 to 3 of 3 items.

I. Hostel Management System

The Hostel Module is a one-of-a-kind module that allows students to be assigned to a hostel and a room. This may be used to assign Wardens to hostels and keep track of visitors.

When students book a hostel room, an Administrator must approve the booking before the room may be assigned. It is possible to pay hostel fees and renew your hostel membership online.

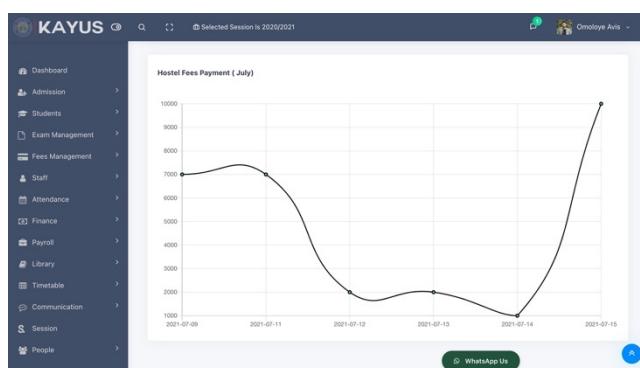

The sub features includes:

1. Hostel History
2. Vacate or Occupy Hostel room
3. List of rooms and capacity per hostel

m. Assets Management Module

This is a module that manage school properties, all asset can be recorded here and easily track their location. With this module one can record repair history, assign asset to staff and get life expectancy of an assets.

With the Transportation system, one can create routes, create vehicles and assign drivers to vehicles. Also, each student can be assigned to their pickup and drop locations

3.0 TECHNICAL SPECIFICATIONS

3.1 Summary of Functions

KAYUS is user-friendly, zero-paper processes in all its operational levels. It does not only enhance school management but also gives a competitive edge over its competitors with a reduced cost thus:

- i. Determines the statistical information at a glance via reports.
- ii. Automates and integrates all processes in the school for better efficiency and flexibility.
- iii. Generates Academic reports such as broadsheet, subject result sheet, class result sheet and many more
- iv. Students/Pupils and teachers can view their personal, financial and academic information through the system.
- v. Shares academic resources through its library system
- vi. KAYUS can be simply adjusted to follow the school's rules, laws, and policies regarding admissions, exams, student promotions, and attendance, among other things.

3.2 Testing, Installation and Training

We'll thoroughly test each module for functionality, accessibility, and browser compatibility for all text and visuals, ensuring that they meet your requirements and display as expected. At most three days of training on portal usage will be offered to the Portal Administrator, Staff, and Students to ensure that they can navigate the system with ease. This will increase their ability to provide content to the system. The final solution, as well as all supporting documentation, will be delivered to the School for evaluation, testing, and migration.

3.3 Performance

The system's design and platform take advantage of the most recent advancements in computer technology. The system features a graphical user interface that is totally web-based and user-friendly, as well as a report writer that allows users to create their own reports. Technically, the software is sound and virtually bug-free.

4.0 PRODUCT ACTIVITIES

The system price is negotiable. The below table describes the system installation durations.

No	Description of Activities	DURATION
A	i. Hosting and Server Configuration ii. Bulk SMS Account Creation iii. Online Payment Platform Integration iv. Email Delivery API Integration v. Backup Tools Account vi. Google Analytics Setup	2 Days
B	i. Software Installation ii. Data Collection iii. System Verification and Modification iv. Trainings	7 Days
C	i. Feedbacks ii. Supports iii. Bug Fix iv. Updates	5 Days
TOTAL		14 DAYS

Note: Domain + Hosting would be provided by the client.

4.1 Term of Payment

This proposal does not include a cost estimate for the entire project. The manner of payment will be determined by the mode of deployment. The school can decide on the mode of deployment after they are satisfied.

4.2 Demo Version

Admotron Solutions recognizes your goal to provide cutting-edge technology to your institution. Our products are capable of withstanding competition in any climate. We may offer a free trial version of KAYUS with no strings attached. Surprisingly, the Demo Version is an exact clone of the full version. As a result, you will have the option to test all aspects of the System as well as request additional features at your leisure.

4.3 Mode of Deployment

Admotron Solutions run different mode of deployment; any choosing options can be negotiated further. Your school can choose from options below:

- a. **Termly Payment (TP):** Admotron Solutions will offer all required materials free of charge. Both the running and the maintenance will be completed. The student will only be charged for an access token once every term. This access token can be as little as (N500) or as much as (N1000).
- b. **Session Payment (SP):** Admotron Solutions will offer all required materials free of charge. Both the running and the maintenance will be completed. The school will only be charged for a subscription fee each session. This subscription fee can be as little as (N1500) or as much as (N3000).
- c. **One time off:** A school can opt to pay one off and take ownership of the system. Typically, one-offs sell for as little as (N1,000,000) and as much as (N5,000,000).

5.0 KAYUS Portfolio

Admotron Solutions has created a wide range of websites across numerous industries utilizing a variety of platforms during the last five years. We'd like to highlight a few institutions that is currently using KAYUS. Furthermore, you will be familiarized with identical standards to those found on the Organization's website.

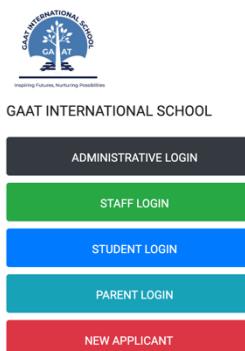

5.1 ADUVIE INTERNATIONAL SCHOOL

Aduvie won for two consecutive years "The Nigerian Advancement Award for Best Performing Primary School in Abuja". She is also a recipient of the prestigious 2014 African

Achievers' Award under the category tagged "Award for Quality Education in West Africa. Recently Aduvie adopted KAYUS as her school management system and it has been serving her seamlessly. The system has served the staff well and we continue to maintain and updated the system till date.

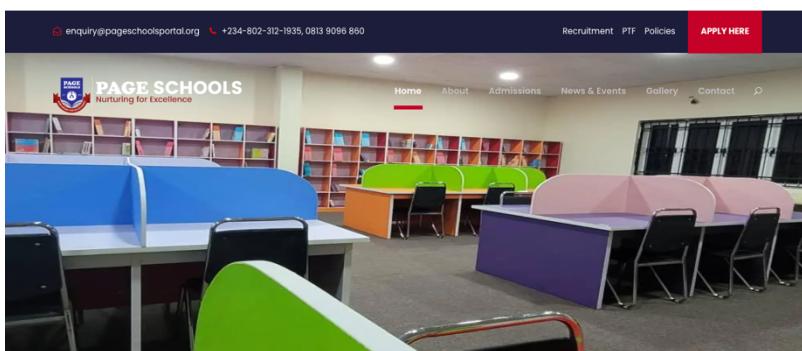

5.2 GAAT International School

Another development was when Admotron Solutions was contracted to integrate KAYUS to GAAT school. Specifically focused to manage Academics

and Student registration. All graphics were provided and designed for the site and integrated to the database. We continue to provide content and SEO support for the system up until now.

5.3 PAGE SCHOOLS, APO

Page is a brand-new School with State-of-the-art facilities, sited in a learner-friendly and serene environment and with highly qualified and

experienced staff. Page School is one of the international schools that adopted KAYUS and currently using it.

5.4 GREAT MINDS MODEL INTELLECTUAL ACADEMY

Great Minds is one of the leading and most sought-after Nursery/Primary

and Secondary School in Abuja. It was incorporated in Dei-Dei, Nigeria with registration number 2353946. In 2022, Great minds opt-in to

use KAYUS and it has make their operation easier and smother. KAYUS team provides comprehensive staff training and also created a support group than response to complaint on time.

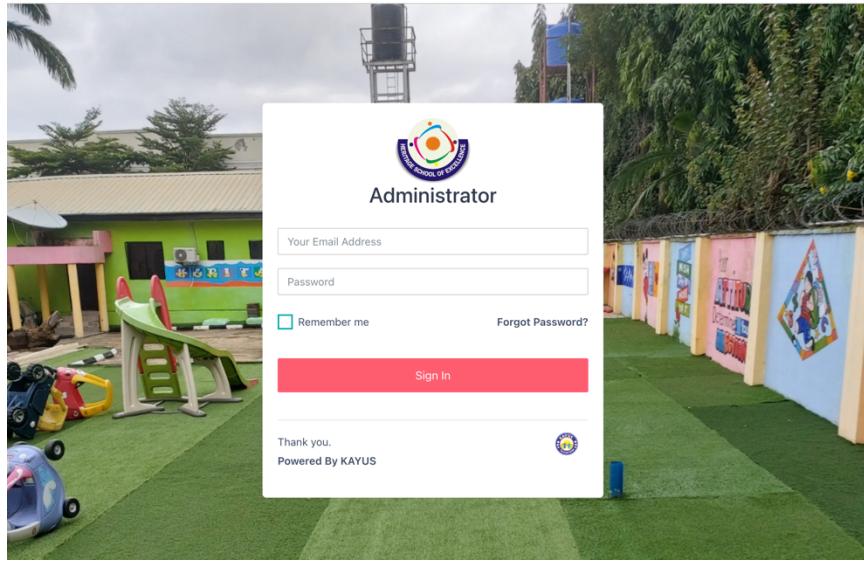

5.5 HASKE INTERNATIONAL SCHOOL, GORON DUTSE

HASKE International School was established in 2nd October, 2013 at No 675, Street 5, Behind Wreca Goron Dutse, Gwale Local Government Kano State. Admotron team was contracted to provide our expertise to HASKE. We develop their official website

and also provide our KAYUS for their school management. We currently manage HASKE till date.

5.6 THE HERITAGE SCHOOL OF EXCELLENCE

The Heritage School of Excellence, is a modern and state of the art institution, she impact Knowledge and is a bridge to greatness. Admotron team provides comprehensive service, staff training and also created a support group than response to complaint

on time for the Heritage School.

6.0 CONCLUSION

Current corporate competition can only be won by effectively managing available resources. Your school is a deserved winner with KAYUS. Admotron Solutions gives you this technology at a low cost to help you grow your business. If you grant us permission, you can rest assured that we will finish and deliver the system this academic term. This is to ensure that it is ready for the current academic term. We are available to answer any questions and look forward to meeting with you in person if you so desire. We look forward to hearing back from you on our proposal. You can get in touch with us via

TO WHOM IT MAY CONCERN

LETTER OF RECOMMENDATION

With utmost confidence, I am writing to recommend KAYUS, a school management software that I have been using for the past two years. KAYUS is a comprehensive and user-friendly system that has helped us to improve the efficiency and effectiveness of our school operations in a number of ways.

One of the most significant benefits of KAYUS is that it has helped us to automate many of our administrative tasks. For example, KAYUS allows us to generate and send reports, track student progress, and manage finances with ease. This has freed up our staff to focus on more important tasks, such as teaching and interacting with students.

Another great benefit of KAYUS is that it has helped us to improve communication between parents and teachers. KAYUS provides parents with access to a portal where they can view their child's grades, attendance, and other important information. Teachers can also use the portal to communicate with parents and provide them with updates on their child's progress.

KAYUS is a cloud-based software, so it can be accessed from anywhere with an internet connection. This makes it a great option for schools of all sizes, including those with multiple campuses. KAYUS is a powerful and versatile school management software that can help schools to improve their efficiency, effectiveness, and communication. Overall, I am extremely satisfied with KAYUS and I highly recommend it to other schools. KAYUS is a valuable asset to any school that is looking to improve the efficiency and effectiveness of its operations.

Sincerely,

Ajayi Oluwola (Director of ICT)

D	Poor Level of Observable Trait
E	No Observable Trait

CLASS TEACHER'S COMMENT(S)	Zara is a likeable child. She has shown strength in English Studies, especially in Abstract Nouns. However, she needs to improve in Mathematics, with special focus on word problems in addition and subtraction of numbers. Additionally, she needs to become more time-conscious when handling a given task as well as in socializing more with her classmates. She is quick to offering help in the class.
CLASS TEACHER'S NAME/SIGNATURE	Yakubu Margaret
HEAD TEACHER'S COMMENT	A very good performance; but you can still work harder to exceed your average score. You're almost there!
HEAD TEACHER'S NAME/SIGNATURE	Joan Nikuru Omaghene
